

WELCOME TO CLARENCE PARK

Clarence Park Care Home provides dedicated Nursing, Palliative and Respite Care for up to 43 residents.

Situated in Weston-super-Mare, close to the town's famous seafront and with views across the striking lawns and mature flower beds of Clarence Park, our home is a prestigious bay-windowed Victorian town house with an air of traditional elegance.

Internally, Clarence Park combines modern and traditional styles, with tastefully decorated ensuite bedrooms, some large enough to accommodate couples while others boast direct courtyard access. Together with sophisticated dining spaces and spacious lounges, every room has been considered with residents in mind.

Accessible courtyard gardens ensure that all residents can enjoy our pleasant outside space, set around a Mediterranean patio space with a stunning arbour and feature fountain. Raised planters ensure that gardening is a continuing pleasure for our green-fingered residents.

A WARM WELCOME AWAITS

All individual care needs are provided through personalised care planning and collaboration with residents and their families. Our holistic approach to care incorporates residents overall wellbeing and we take great pride in the nutritional care we offer. Our team of chefs are proud to cook nutritious home cooked meals daily, catering to all dietary needs and preferences promoting sociable dining experiences.

Our Activities Programme is second to none, with residents encouraged to continue much-loved hobbies, and to begin new ones!

We're proud to be a welcoming home where residents are relaxed, happy and fulfilled, with care always on hand should it be required.
